The newest trend

The president of Shanghai Xinhai Customs Brokerage Co, Ltd. Ge Jizhong was interviewed by CCTV, explained how the enterprises realize Internet+ and transit, leveraging the Belt and Road to promote the internationalization process of the enterprises.

President Ge said: Along with the realization of “internet+ customs brokerage”, the paperless e-customs brokerage and the development of the integration of national customs clearance has broken the limitation of space and region. At one time, the business in central European are few caused by the incontinent transportation and logistics limitation. As the establishment of the Belt and Road and the central railway connecting with European countries, many enterprises set overseas warehouses, bringing commodities form central European countries and sending popular commodities back, which promote the friendly exchanges between countries in economic and trade. Besides, we will grasp the opportunity to dig out the massive potential market of One Belt and the Road, utilizing the internet+ to explore a new field.

President Ge Interviewed by CCTV to Talk about the Globalization of Enterprises In China
